Re: Reclamation Contract, Interstate Brick Company, Fivemile Pass Mine M/045/006, Tooele County, Utah

Dear Mr. North:

The Reclamation Contract (Form MR-RC) recently received by the Division for the Fivemile Pass Mine require some corrections/additions. These additions or corrections are as follows: On page 2/9, the escalation year is 1999 Dollars. On page 3/9, the original notice of intention was dated March 2, 1977 and the original reclamation plan was dated March 2, 1977. The form was missing pages 5/9 and 9/9.

Page 5/9 should include the name of Interstate's authorized officer's name (Nick Kalanges?) typed or printed on the first blank line, the authorized officer's signature on the next line and date of signature on the adjacent line. The other portions of page 5/9 will be completed by the Division. Please route the enclosed blank page 5/9 for the appropriate signature and return it to the Division prior to the October 26, 1994 Board Hearing. We have scheduled approval of this surety for the October 26 Board Hearing; however, we cannot present this matter without the missing signature page.

Page 9/9 will be completed by the Division when we receive the updated site map. During your September 28 visit to the Division you indicated the map should be submitted within a week. If the map is not received by the Division by Tuesday October 11, we will need to reschedule this matter for the next Board Hearing (November/December). A copy of the Reclamation Contract form, with these corrections/additions highlighted, is enclosed for your files.

If you have any questions regarding this letter or the completion of the Reclamation Contract form please contact me or Wayne Hedberg.

Sincerely,

Anthony A. Gallegos  
Reclamation Engineer
